WHY HYDRATION?

Hydration and IV Vitamin Therapy is an elective form of wellness and beauty therapy in which vitamins, antioxidants and (when applicable) medicines are infused via IV to the client. IV therapy is the quickest and most effective way to reach immediate results.

Total Body Energy provides various treatments that can aid in enhancing memory and alertness, cleanse the body of free radicals, and even provide physical benefits such as enhancing hair, skin and nails and reducing stress.

HYDRATION THERAPY MAY HELP WITH THE FOLLOWING:

Dehydration

Jet Lag

Over
Indulgence

Fatigue

Athletic
Performance

Flu/Illess
Recovery

Weight
Maintenance
